Tip or Complaint: Have you been monitoring the Flint, MI. "lead" in the city water? Gov. Snyder is on livestream today at 10:00. EDT There have been conflicting reports about the origin of the lead in the water. [1] Flint switched from the Detroit Water System to their own system, and then discovered lead in the water. [2] Flint says the lead is from the "old" existing lead city water pipes. [3] Last night the news said Flint is switching back to the Detroit Water System. [4] If the lead is from the city pipes, then

switching the supply source won't eliminate the lead problem since the same pipes will be used. [5] IS THERE A COVER UP OF THE SOURCE OF THE LEAD?

Specific Directions: FLINT WATER
